Chapter 1

README

`band` is a `c++` media-library.

The library tries to allow allow cross-platform applications to be created in the simplest way possible while maintaining flexibility.

The focus of the UI-component is on controls. The controls are meant to be building blocks that can be composed into more complicated controls.

Assets are compiled into the program itself. This prevents having to be concerned about bundling assets differently for different platforms.

Dependencies

- `libtool`: Combining static libraries when building.
- `doxygen`: Documentation generation.

Building

- `make` in the root-directory builds documentation.
- `make` in the '`band`'-dierctory builds `band` into a static-library.
- `make` in the '`example`'-directory builds all the examples. A `make clean` should be run before if the library itself was actually modified.

Running

- `cmd/file-to-code/file-to-code` runs a tool which generates a header and source file from a normal file.
- `example/bin/simple` runs the simple-example.
- `example/bin/control` runs an example using controls.

Linking

- Provide the path to the combined 'band'-directory as an include-path and the compiled static-library as a linked-library. Additionally, `dl`, `X11`, and `pthread` should be linked. These aren't a dependency for all platforms so they are left to the consumer to link. An example can be seen in the 'Makefile' in the 'example' folder.

Feature-Requests

- Create a issue with the label 'enhancement'. It will be groomed then sorted into a release to be worked on.

Contributing

- Any task or feature-request can be worked on before being groomed on its own branch. If the feature is desired, it will be merged until a release.

Chapter 2

Namespace Index

2.1 Namespace List

Here is a list of all namespaces with brief descriptions:

| | |
|-----------------------------------|----|
| band | 11 |
| band::asset | 19 |
| band::asset::font | 20 |
| band::control | 20 |
| band::interface | 20 |

Chapter 3

Hierarchical Index

3.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

| | |
|---|----|
| band::Area | 24 |
| band::Circle | 45 |
| band::Color | 46 |
| band::Control | 47 |
| band::BaseControl | 25 |
| band::control::Anchor< T > | 21 |
| band::control::Border | 37 |
| band::control::Button< T > | 39 |
| band::control::FixedPanel< T > | 52 |
| band::control::Fps | 55 |
| band::control::Image | 56 |
| band::control::Label | 66 |
| band::control::PaddedPanel< T > | 70 |
| band::control::Rectangle | 84 |
| band::control::StackPanel< T > | 90 |
| band::control::Texture | 93 |
| band::Dimension | 51 |
| band::File | 51 |
| band::Interface | 58 |
| band::interface::BaseInterfaceDecorator< T > | 28 |
| band::interface::DebugInterfaceDecorator< T > | 49 |
| band::interface::SectionInterfaceDecorator< T > | 88 |
| band::interface::RaylibInterface | 74 |
| band::Line | 69 |
| band::Point | 73 |
| band::Rectangle | 86 |
| band::Scope | 87 |
| band::Triangle | 95 |
| band::WindowArea | 96 |

Chapter 4

Class Index

4.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

| | |
|---|----|
| band::control::Anchor< T > | 21 |
| band::Area | 24 |
| band::BaseControl | 25 |
| band::interface::BaseInterfaceDecorator< T > | 28 |
| band::control::Border | 37 |
| band::control::Button< T > | 39 |
| band::Circle | 45 |
| band::Color | 46 |
| band::Control | 47 |
| band::interface::DebugInterfaceDecorator< T > | 49 |
| band::Dimension | 51 |
| band::File | 51 |
| band::control::FixedPanel< T > | 52 |
| band::control::Fps | 55 |
| band::control::Image | 56 |
| band::Interface | 58 |
| band::control::Label | 66 |
| band::Line | 69 |
| band::control::PaddedPanel< T > | 70 |
| band::Point | 73 |
| band::interface::RaylibInterface | 74 |
| band::control::Rectangle | 84 |
| band::Rectangle | 86 |
| band::Scope | 87 |
| band::interface::SectionInterfaceDecorator< T > | 88 |
| band::control::StackPanel< T > | 90 |
| band::control::Texture | 93 |
| band::Triangle | 95 |
| band::WindowArea | 96 |

Chapter 5

File Index

5.1 File List

Here is a list of all files with brief descriptions:

| | |
|--|-----|
| band/all.h | 97 |
| band/control.d | 100 |
| band/control.h | 100 |
| band/interface.d | 117 |
| band/interface.h | 117 |
| band/scope.d | 123 |
| band/scope.h | 123 |
| band/asset/font/helvetica.font.d | 99 |

6.1.3 Function Documentation

6.1.3.1 AddDimensions()

```
Dimension band::AddDimensions (
    const Dimension & a,
    const Dimension & b,
    Real pixels )
```

6.1.3.2 Cleanup()

```
void band::Cleanup (
    Interface & interface,
    Control & control )
```

6.1.3.3 DefaultInterface()

```
std::unique_ptr<Interface> band::DefaultInterface ( )
```

6.1.3.4 DrawFrame()

```
void band::DrawFrame (
    const Color & clear_color,
    const Point & position,
    Interface & interface,
    Control & control )
```

6.1.3.5 IsDimensionGreaterThanOrEqualTo()

```
bool band::IsDimensionGreaterThanOrEqualTo (
    const Dimension & a,
    const Dimension & b,
    Real pixels )
```

6.1.3.6 MaxDimension()

```
Dimension band::MaxDimension (
    const Dimension & a,
    const Dimension & b,
    Real pixels )
```

6.1.3.7 MinDimension()

```
Dimension band::MinDimension (
    const Dimension & a,
    const Dimension & b,
    Real pixels )
```

6.1.3.8 MultiplyDimension()

```
Dimension band::MultiplyDimension (
    const Dimension & a,
    Real scalar )
```

6.1.3.9 operator!=() [1/9]

```
bool band::operator!= (
    const Dimension & a,
    const Dimension & b )
```

6.1.3.10 operator!=() [2/9]

```
bool band::operator!= (
    const Point & a,
    const Point & b )
```

6.1.3.11 operator!=() [3/9]

```
bool band::operator!= (
    const Line & a,
    const Line & b )
```

6.1.3.12 operator!=() [4/9]

```
bool band::operator!= (
    const Circle & a,
    const Circle & b )
```

6.1.3.13 `operator!=()` [5/9]

```
bool band::operator!= (
    const Triangle & a,
    const Triangle & b )
```

6.1.3.14 `operator!=()` [6/9]

```
bool band::operator!= (
    const Rectangle & a,
    const Rectangle & b )
```

6.1.3.15 `operator!=()` [7/9]

```
bool band::operator!= (

- void [Draw](#) (const [Point](#) &position, [Interface](#) &interface) override

7.15.1 Member Function Documentation

7.15.1.1 Area()

```
::band::Area band::control::Image::Area (
    const Interface & interface ) const [override], [virtual]
```

Implements [band::Control](#).

7.15.1.2 CleanUp()

```
void band::control::Image::CleanUp (
    Interface & interface ) [override], [virtual]
```

Implements [band::Control](#).

7.15.1.3 Draw()

```
void band::control::Image::Draw (
    const Point & position,
    Interface & interface ) [override], [virtual]
```

Implements [band::Control](#).

7.15.1.4 ImageId()

```
::band::ImageId band::control::Image::ImageId ( ) const
```

7.15.1.5 SetHeight()

```
void band::control::Image::SetHeight (
    const std::optional< Dimension > & height )
```

7.15.1.6 SetImageId()

```
void band::control::Image::SetImageId (
    ::band::ImageId id )
```

7.15.1.7 SetWidth()

```
void band::control::Image::SetWidth (
    const std::optional< Dimension > & width )
```

7.16.2 Constructor & Destructor Documentation

7.16.2.1 ~Interface()

```
virtual band::Interface::~~Interface ( ) [virtual], [default]
```

7.16.3 Member Function Documentation

7.16.3.1 CharacterPressed()

```
virtual std::optional<char> band::Interface::CharacterPressed ( ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.2 Clear()

```
virtual void band::Interface::Clear (
    const Color & color ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.3 CreateBlankTexture()

```
virtual TextureId band::Interface::CreateBlankTexture (
    const Area & area ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.4 CreateImageTexture()

```
virtual TextureId band::Interface::CreateImageTexture (
    ImageId id,
    const Area & area ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.5 DeleteAllFonts()

```
virtual void band::Interface::DeleteAllFonts ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.6 DeleteAllImages()

```
virtual void band::Interface::DeleteAllImages ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.7 DeleteAllTextures()

```
virtual void band::Interface::DeleteAllTextures ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.8 DeleteFont()

```
virtual void band::Interface::DeleteFont (
    FontId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.9 DeleteImage()

```
virtual void band::Interface::DeleteImage (
    ImageId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.10 DeleteTexture()

```
virtual void band::Interface::DeleteTexture (
    TextureId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.11 DrawCircle()

```
virtual void band::Interface::DrawCircle (
    const Circle & circle,
    const Leg & leg,
    const Color & color ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.12 DrawFps()

```
virtual void band::Interface::DrawFps (
    const Point & position ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), [band::interface::BaseInterfaceDecorator< T >](#), and [band::interface::DebugInterfaceDecorator< T >](#).

7.16.3.13 DrawLine()

```
virtual void band::Interface::DrawLine (
    const Line & line,
    const Dimension & thickness,
    const Leg & leg,
    const Color & color ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.14 DrawRectangle()

```
virtual void band::Interface::DrawRectangle (
    const Rectangle & rectangle,
    const Color & color ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.15 DrawText()

```
virtual void band::Interface::DrawText (
    const Text & text,
    const Point & position,
    const Dimension & dimension,
    const Color & color,
    FontId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.16 DrawTexture()

```
virtual void band::Interface::DrawTexture (
    TextureId id,
    const Point & position ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.17 DrawTriangle()

```
virtual void band::Interface::DrawTriangle (
    const Triangle & triangle,
    const Color & color ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.18 HasAction()

```
virtual bool band::Interface::HasAction (
    const Action & action ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.19 ImageArea()

```
virtual Area band::Interface::ImageArea (
    ImageId id ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.20 LoadFont()

```
virtual FontId band::Interface::LoadFont (
    const File & file ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.21 LoadImage()

```
virtual ImageId band::Interface::LoadImage (
    const File & file ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.22 MeasureText()

```
virtual Area band::Interface::MeasureText (
    const Text & text,
    const Dimension & dimension,
    FontId id ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.23 MousePosition()

```
virtual Point band::Interface::MousePosition ( ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.24 SelectTexture()

```
virtual void band::Interface::SelectTexture (
    TextureId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.25 SetIcon()

```
virtual void band::Interface::SetIcon (
    ImageId id ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.26 SetTargetFps()

```
virtual void band::Interface::SetTargetFps (
    Size fps ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.27 SetTitle()

```
virtual void band::Interface::SetTitle (
    const Text & text ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.28 SetWindowArea()

```
virtual void band::Interface::SetWindowArea (
    const ::band::WindowArea & area ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.29 StartDrawing()

```
virtual void band::Interface::StartDrawing ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.30 StopDrawing()

```
virtual void band::Interface::StopDrawing ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), [band::interface::BaseInterfaceDecorator< T >](#), and [band::interface::DebugInterfaceDecorator< T >](#).

7.16.3.31 TextureArea()

```
virtual Area band::Interface::TextureArea (
    TextureId id ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.32 ToggleFullscreen()

```
virtual void band::Interface::ToggleFullscreen ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.33 UnselectTexture()

```
virtual void band::Interface::UnselectTexture ( ) [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), and [band::interface::BaseInterfaceDecorator< T >](#).

7.16.3.34 WindowArea()

```
virtual ::band::WindowArea band::Interface::WindowArea ( ) const [pure virtual]
```

Implemented in [band::interface::RaylibInterface](#), [band::interface::BaseInterfaceDecorator< T >](#), and [band::interface::SectionInterfaceDecorator< T >](#).
